Why corrupt judges can use Contempt of Court as a weapon against an advocate who is fulfilling his duty to assist court in reaching truth? Disrespect to an advocate by any judge is also Contempt of the Court but our coward leaders of the bars are just henchmen of the corrupt judges so they prefer to ignore this and stand with the Bench in punishing upright advocates. Shameful.

I have been convicted under the contempt of courts act and sentenced to 3 months imprisonment for writing a letter to CJ against the misbehavior of judge but in SC and high court so many senior lawyers make a lot of nonsense comment but no action is taken. The contempt of courts act is being very selectively applied.

The process of designation does not take other aspects in consideration excepts success in terms of volume or money. Court hardly looks into the method and kind of litigation one is involved in. Lawyers who have nexus and govt panel easily get it but others don't find themselves in race.

Hardly there are appox 100 families in the country, Whose progney deserve for elevation to H.C or to Apex court. And few of them were counsels for State or various Corporations. Repeal law of contempt then real picture will emerge before Society.

What crime did he commit? He raised allegations against some judges. Instead of investigating his allegations, the very same judges were allowed to hear his case - and then punish him. NOT FAIR AT ALL. Even now, there is time - investigate the allegations. If the allegations are false, punish Karnan for defamation. If allegations are proved right, punish those judges and change or correct the system in such a way that corrupt judges dont remain in office.
