Delhi HC *stays* ban on sale and manufacture of **Oxytocin** till October

The Delhi High Court today stayed Central Government's decision to ban the sale and manufacture of oxytocin, a peptide hormone, by private companies, till October 1.

"We are of the prima facie opinion that the domestic ban/complete prohibition on the sale and manufacturing of oxytocin should be suspended for one month. Parties may in the meantime complete their submissions. List for further arguments.", the Court said.

A Division Bench comprising Justices **S Ravindra Bhat**

Justice Karnan is a great personality in the arena of Judicial System, he tried to unearth the bad elements persisted in the judiciary who are sucking the blood of affected people like Jokes (leaches), and delaying polluting verdicts for honest and true Citizens, no one Citizen of India able to have trust on Judicial systems. ...no one is coming darely to expose the to authorities of Judges Even the PM of India not dared like Karnan to take stern actions against the Corruption in Judiceries....

judicial collective audacity/autocracy because no one is above them ..we the people pay for

you be a good servant not master. We need a revolution to rein this audacious collective judiciary having ultra vires powers.

I have been convicted under the contempt of courts act and sentenced to 3 months imprisonment for writing a letter to CJ against the misbehavior of judge but in SC and high court so many senior lawyers make a lot of nonsense comment but no action is taken. The contempt of courts act is being very selectively applied.

Why corrupt judges can use Contempt of Court as a weapon against an advocate who is fulfilling his duty to assist court in reaching truth? Disrespect to an advocate by any judge is also Contempt of the Court but our coward leaders of the bars are just henchmen of the corrupt judges so they prefer to ignore this and stand with the Bench in punishing upright advocates. Shameful.

The process of designation does not take other aspects in consideration excepts success in terms of volume or money. Court hardly looks into the method and kind of litigation one is involved in. Lawyers who have nexus and govt panel easily get it but others don't find themselves in race.

If a person selected as a judge in a lower judiciary at the age limit between 25 to 27, then this person have got minute chance of elevation to H. C otherwise i have not heard any chief justice of any h. c who had selected as a JMIC

What crime did he commit? He raised allegations against some judges. Instead of investigating his allegations, the very same judges were allowed to hear his case - and then punish him. NOT FAIR AT ALL. Even now, there is time - investigate the allegations. If the allegations are false, punish Karnan for defamation. If allegations are proved right, punish those judges and change or correct the system in such a way that corrupt judges dont remain in office.
