DRAFT QUALITY CONTROL ORDERS (“QCOs”) NOTIFIED AT THE WTO¹

Before being notified into law, draft Quality Control Orders are notified to the World Trade Organization (“WTO”) Technical Barriers to Trade Committee (“TBT”) to allow all member countries to submit their feedback and comments within a 60-day period following the notification date. In January 2024, India did not notify any draft QCOs to the WTO.

NEW QCO’S NOTIFIED IN THE GAZETTE

- Laboratory Glassware (Quality Control) Order, 2023 –**June 1, 2024**
- Electrical Accessories (Quality Control) Order, 2023 –**June 1, 2024²**

Please note the QCOs provide additional time for compliance for the MSME sector i.e., 3 additional months for Small Enterprises and 6 additional months for Micro Enterprises.

ELP Comments

The producers of the relevant products will now have to obtain BIS certification for their products. To obtain such a license, both foreign producers and domestic manufacturers of these products would need to submit an application to the BIS seeking certification.

Further, the certification process will also require physical testing and inspection of the relevant products at the factory premises as well as parallel testing by a Bureau of Indian Standards (BIS)-authorized laboratory in India to verify the same. BIS certification is a time-consuming process and therefore it is recommended that interested producers make applications for certification at the earliest in cases wherein Quality Control Orders have been issued and are pending enforcement.

ALL INDIA FIRST LICENSE³

All India First License refers to the first license ever issued for a certain Indian standard to a manufacturer. The issuance of the All India First License for the respective Indian standard not only paves the way for other applicants to follow the established procedures but also serves as a clear indicator of the department's proactive approach in granting licenses to eligible applicants.

Product Name	Standard
Vitamin and Mineral Premix for Manufacturing Fortified Rice Kernels	IS 17781:2021
Morpholine	IS 12084:2018

Electrical Moisture Meters – Specification Part 1 Food Grains, Seeds and Flour	IS 8824 (Part 1):2022

ELP Comments

Entities currently involved with these specific products should proactively prepare and submit applications to the BIS for securing their license. This strategic move will grant them a first mover advantage over counterparts lacking BIS certification.
