DRAFT QUALITY CONTROL ORDERS (“QCOs”) NOTIFIED AT THE WTO¹

Before being notified into law, draft Quality Control Orders are notified to the World Trade Organization (“WTO”) Technical Barriers to Trade Committee (“TBT”) to allow all member countries to submit their feedback and comments within a 60-day period following the notification date.

In April 2024, India notified the following draft QCOs to the WTO:

- Solar Thermal Systems, Devices and Components (Quality Control) Order 2024.
- Steel and Steel Products (Quality Control) Order, 2024.

India also notified an amendment to the Electronics and Information Technology Goods (Requirements for Compulsory Registration) Order, 2021 wherein it prescribed essential requirements for CCTV Cameras.

NEW QCOs NOTIFIED IN THE GAZETTE

- Copper Products (Quality Control) Order, 2024 – **October 19, 2024.**

Note: The QCO provides additional time for compliance for the MSME sector i.e., 3 additional months for Small Enterprises and 6 additional months for Micro Enterprises.

ELP Comments

The producers of the relevant products will now have to obtain BIS certification for their products by the listed dates. To obtain such a license, both foreign producers and domestic manufacturers of these products would need to submit an application to the BIS seeking certification.

Further, the certification process will also require physical testing and inspection of the relevant products at the factory premises as well as parallel testing by a Bureau of Indian Standards (BIS)-authorized laboratory in India to verify the same. BIS certification is a time-consuming process and therefore it is recommended that interested producers make applications for certification at the earliest in cases wherein Quality Control Orders have been issued and are pending enforcement.

EXTENSIONS/AMENDMENTS FOR EXISTING QCOs

- Electronics and Information Technology Goods (Requirements for Compulsory Registration) Order, 2021 – **October 9, 2024.**
- Ortho Phosphoric Acid (Quality Control) Amendment Order, 2024 – **July 12, 2024.**

Note: The Ortho Phosphoric Acid (Quality Control) Amendment Order, 2024 only applies to cases where Ortho Phosphoric Acid is used as a raw material in the production of fertilizers.

ELP Comments

Wherever extensions have been granted, producers of the relevant products will now have additional time to obtain BIS certification for their products.

ALL INDIA FIRST LICENSE²

All India First License refers to the first license ever issued for a certain Indian standard to a manufacturer. The issuance of the All India First License for the respective Indian standard not only paves the way for other applicants to follow the established procedures but also serves as a clear indicator of the department's proactive approach in granting licenses to eligible applicants.

Product Name	Standard
Agricultural Irrigation Equipment - Manually Operated Serviceable Plastics Valves	IS 18286:2023
Gypsum Plaster Boards: Part 3 -Reinforced Gypsum Plaster Boards And Ceiling Tiles	IS 2095 (Part 3):2022
Copper Rods and Bars for Electrical Purposes	IS 613:2000

ELP Comments

Entities currently involved with these specific products should proactively prepare and submit applications to the BIS for securing their license. This strategic move will grant them a first mover advantage over counterparts lacking BIS certification.

COVERAGE ON BIS STANDARDS

The Bureau of Indian Standard keeps updating the existing standards to replace them with new standards in a phased manner. Below is the list of such standards and their respective dates for establishment and withdrawal:
